what customers says *about us*
our customer reviews are your best guarantee

“
we are impressed
with their work so far”

First Officier
MY LUNA B 66 m | Oceanco Yachts

**work: Gym Area
total renew with 3M Dinoc Films**

“ We had the pleasure of having Fabio and Luciano from Mimetika assist us on board during a shipyard period. The goal was to get the marble in the guest area protected to prevent future damage and to lift the overall quality and look of the marble tops, tables and bars in these areas. They were extremely helpful and professional, and nothing was too much to ask. From ordering more products for us and getting it to us in a very short period of time, to completing the actual work on board, their time management and quality of work was of top standard. I would highly recommend Mimetika for the wrapping of marble and other similar jobs, and will gladly make use of their services again. ”

Lana Schreiber | Chief Stewardess
MY CASINO ROYALE 72 m | Tankoa Yachts
**work: polyurethane film protection
marble and furniture**

what customers says about us
our customer reviews are your best guarantee

“ We had a problem with our original wrapping and consulted a number of specialists. Fabio was the only one who was sincere with us from the beginning. His colleagues are very hard working and professional.

We are very happy with the result and would recommend Mimetika at anytime for a job well done.

Plus Fabio is a nice person to deal with and very responsive.”

Rami Debbas | Debbas Marine | Malta
MY Ganache | 24 m | Leopard Yacht
work: total hull wrap

“ We are very glad that we have chosen Mimetika to turn the idea into reality in the highest quality way! The goal for Fabio and his team was to install the blue film on the hull of the brand new Absolute 60 fly yacht in the design we had chosen. Fabio is very easy to communicate with, they are very flexible to changes during work. Always in touch. In the end, it was fast, high quality and very easy for us.

We would highly recommend Mimetika for the quality of materials, workmanship and serious attitude towards work.

Thanks! ”

to wrap or to paint? that is the question....

wrapping | key benefits

Cost Effective

Considerable cost saving when comparing with re-paint or traditional interior refit

Fast Application

No need to wait months if you can have it in days.
The transformation is fast and affordable.

Unique Customization

over 900 possible colours available
endless design and color possibilities
The limit is your imagination

Maintain Asset Value

A Yacht with a fresh and neat look, with all surfaces protected, keeps its reselling value high

Easy Maintenance

No polishing required!
Easy wash with soap and water, that's all what is needed.

Resistance And Lifetime

Protect your paint and interior surfaces from wear and tear, UV rays, chemical pollution, hydrocarbon

working approach and method

1

site inspection, yacht and surface evaluation with application test; full 3D dimensioning and volume survey

2

customer interview; we want to know your needs, what materials and styles you like, your expectations and your dreams. Our graphic designers and architects will provide you with extraordinary renderings with “a before and after” view

3

work planning and organization; our team will take care of everything: surface preparation, deep cleaning, application of new materials with obsessive attention to detail. Final sealing, maximum privacy, no noise, no dirt, no environmental footprint

4

project quality control 15 days after completion. Our after-sales Services has always set us apart from the competition; the success of our projects, clients' satisfaction and their reviews throughout Europe are your best guarantee.
